

PES University

UQ21MC612A – Data Structures Lab

Lab 1

Write a program in C to

1. Add two numbers and display the sum.
2. Implement a simple calculator
3. Read a string and count the frequency of the letters in the string
4. Read 'n' numbers and display the largest number. (Use Arrays)

For the above programs write the algorithm before you come to lab (7 Dec 2021).
